### **Rural Development**

USDA's Rural Development mission area helps to overcome the problems and fulfill the promise of rural America. Rural Development programs improve the quality of life for rural residents by creating quality housing, a vibrant rural business sector and by ensuring that rural areas are served by utilities and the Information Superhighway.

This USDA mission area is comprised of the **Rural Business-Cooperative Service (RBS)**, **Rural Housing Service (RHS)**, **Rural Utilities Service (RUS)**, and the **Office of Community Development (OCD)**. RBS' emphasis is on making loan guarantees or direct loans for projects that preserve or create quality jobs and/or promote a clean rural environment.

The **Cooperative Services** program of RBS provides technical assistance, research and educational materials to strengthen the Nation's rural cooperatives and to help develop new cooperatives. RHS provides loans and grants that help more than 65,000 moderate-, low-, or very-low-income families secure quality housing each year.

The **Community Facilities Loan** program of RHS builds or improves facilities that provide health care, public safety or other vital public services in rural communities. RUS helps to finance electric, telecommunications, water and wastewater facilities that serve rural areas. The RUS distance learning and medical link programs offer improved education and health services to isolated rural areas.
